

AP POLICE SI PRELIMS 2026

Master Study Booklet

Contents

1. Study Guide — exam pattern & full syllabus
2. Subject-wise Preparation Plan
3. Subject-wise Preparation Notes
4. Arithmetic Deep Dive (solved problems)
5. Andhra Pradesh GK
6. Current Affairs 2026
7. Quick-Revision Sheet
8. Week-by-Week Study Timetable
9. PMT / PET Standards & Training Plan

AP Police SI Prelims 2026 — Syllabus & Study Material

Recruiting body: **Andhra Pradesh State Level Police Recruitment Board (APSLPRB)**
Post: **Sub Inspector of Police** · Vacancies: **418** · Notification: **15 August 2026** Official site: slprb.ap.gov.in Selection stages: **Prelims → PMT/PET → Mains (Final Written)**

This guide covers the Prelims stage only, with study material for each topic. Verify the final syllabus against the official notification when it is released; this is built from the published exam pattern.

1. Prelims Exam Pattern

Paper	Subject	Questions	Marks	Duration
Paper 1	Arithmetic & Test of Reasoning / Mental Ability	100	100	3 hours
Paper 2	General Studies (Degree Standard)	100	100	3 hours
Total		200	200	

Both papers are objective type. You must clear **both** papers to advance to the PMT/PET and Mains stage.

2. Detailed Prelims Syllabus

Paper 1 — Arithmetic: Number system · Simple & compound interest · Ratio & proportion · Average · Percentage · Profit & loss · Time & work · Work & wages · Time & distance · Clocks & calendars · Partnership · Mensuration.

Paper 1 — Reasoning & Mental Ability: Verbal & non-verbal reasoning · Analogies · Similarities and differences · Spatial visualisation · Spatial orientation · Problem-solving · Analysis · Judgment · Decision making · Visual memory.

Paper 2 — General Studies (Degree Standard): General science & recent S&T developments · Environment & contemporary issues · Current events of national and international importance · History of India · Geography of India · Indian Polity & Economy.

3. Study Material — Paper 1: Arithmetic

3.1 Number System

- A number divisible by **2** ends in 0/2/4/6/8; by **3** if digit sum divisible by 3; by **9** if digit sum divisible by 9; by **11** if (sum of odd-place digits – sum of even-place digits) is 0 or divisible by 11.
- $\text{LCM} \times \text{HCF} = \text{Product of the two numbers}$.
- Sum of first n natural numbers $= n(n+1)/2$; sum of squares $= n(n+1)(2n+1)/6$; sum of cubes $= [n(n+1)/2]^2$.

3.2 Percentage

- $x\% \text{ of } y = (x/100) \times y$.
- To increase a number by $x\%$, multiply by $(1 + x/100)$; to decrease, multiply by $(1 - x/100)$.
- If a value rises by $x\%$ then falls by $x\%$, net change $= -(x^2/100)\%$ (always a net loss).
- Conversion shortcuts: $1/2 = 50\%$, $1/4 = 25\%$, $1/5 = 20\%$, $1/8 = 12.5\%$, $1/3 \approx 33.33\%$, $1/6 \approx 16.67\%$.

3.3 Ratio & Proportion

- $a : b = c : d$ means $ad = bc$ (product of extremes = product of means).
- If $a : b$ and $b : c$ are given, make b common to find $a : b : c$.
- Dividing an amount A in ratio $m : n \rightarrow$ shares are $A \cdot m/(m+n)$ and $A \cdot n/(m+n)$.

3.4 Average

- $\text{Average} = \text{Sum of observations} / \text{Number of observations}$.
- Average speed for equal distances at speeds a and $b = 2ab/(a+b)$ (harmonic mean).
- If average of n numbers is A and one number is replaced, new sum changes by (new – old).

3.5 Profit & Loss

- $\text{Profit}\% = (\text{SP} - \text{CP})/\text{CP} \times 100$; $\text{Loss}\% = (\text{CP} - \text{SP})/\text{CP} \times 100$.
- $\text{SP} = \text{CP} \times (100 + \text{Profit}\%)/100$.
- Successive discounts of $x\%$ and $y\%$ = net discount of $(x + y - xy/100)\%$.
- Marked price, discount, and "false weight" cheating problems are common — practise these.

3.6 Simple & Compound Interest

- Simple Interest: $\text{SI} = (P \times R \times T)/100$.
- Compound Interest: Amount $A = P(1 + R/100)^T$; $\text{CI} = A - P$.
- For 2 years, $\text{CI} - \text{SI} = P(R/100)^2$.
- Half-yearly compounding: rate becomes $R/2$, time becomes $2T$.

3.7 Time & Work / Work & Wages

- If A does a job in n days, A's one-day work = $1/n$.
- A and B together: $1/A + 1/B$ = combined one-day work; time together = $AB/(A+B)$.
- Work and wages are shared in the ratio of work done (i.e., in ratio of efficiency $\times$ time).
- Efficiency is inversely proportional to time taken.

3.8 Time, Speed & Distance

- Speed = Distance / Time. Unit conversion: $1 \text{ km/h} = 5/18 \text{ m/s}$; $1 \text{ m/s} = 18/5 \text{ km/h}$.
- Trains crossing a pole: time = length of train / speed. Crossing a platform: (train + platform length)/speed.
- Two trains, relative speed = sum of speeds (opposite directions) or difference (same direction).
- Boats: downstream speed = boat + stream; upstream = boat – stream.

3.9 Partnership

- Profit is shared in the ratio of (capital $\times$ time invested).
- Simple partnership: equal time $\rightarrow$ share in ratio of capital. Compound partnership: account for differing time periods.

3.10 Mensuration (key formulas)

Shape	Area / Volume
Rectangle	Area = $l \times b$; Perimeter = $2(l + b)$
Square	Area = a^2 ; Perimeter = $4a$
Triangle	Area = $\frac{1}{2} \times \text{base} \times \text{height}$
Circle	Area = πr^2 ; Circumference = $2\pi r$
Cuboid	Volume = $l \times b \times h$; Surface area = $2(lb + bh + hl)$
Cube	Volume = a^3 ; Surface area = $6a^2$
Cylinder	Volume = $\pi r^2 h$; Curved surface = $2\pi r h$
Sphere	Volume = $(4/3)\pi r^3$; Surface area = $4\pi r^2$
Cone	Volume = $(1/3)\pi r^2 h$; Curved surface = $\pi r l$

3.11 Clocks & Calendars

- Clock: the minute hand gains 5.5° per minute over the hour hand; hands overlap every ≈ 65.45 minutes.
- Calendar: an ordinary year has 1 odd day, a leap year has 2 odd days. Use odd days to find the day of the week for any date.
- A year is a leap year if divisible by 4 (and, for century years, divisible by 400).

4. Study Material — Paper 1: Reasoning & Mental Ability

Analogies: Find the relationship in the first pair (synonym, antonym, cause-effect, part-whole, worker-tool) and apply it to the second.

Series (number & letter): Look for patterns — addition/subtraction of a constant, multiplication, squares/cubes, alternating patterns, or position shifts in the alphabet.

Coding-Decoding: Common types — letter shifting (A→C means +2), reversing, number-to-letter mapping. Write out the alphabet with position numbers (A=1 ... Z=26) before solving.

Blood Relations: Draw a family tree. Use symbols (+ for male, – for female, = for couple). Solve "pointing to a photo" puzzles step by step.

Direction Sense: Sketch a compass (N at top). Track each turn; remember left/right turns relative to the current facing direction. Use Pythagoras for shortest-distance questions.

Seating Arrangement: Linear and circular. Fix the certain clues first, then place conditional ones. For circular arrangements, note whether people face the centre or outward (it flips left/right).

Syllogisms: Use Venn diagrams. A conclusion is valid only if it holds in every possible diagram.

Non-verbal reasoning: Mirror/water images, paper folding & cutting, figure series, embedded figures, and cube/dice problems (opposite faces never appear together).

Visual memory & spatial reasoning: Practise pattern completion, odd-one-out figures, and rotation of shapes. Speed comes only from repeated practice.

5. Study Material — Paper 2: General Studies (Degree Standard)

5.1 General Science

- **Physics basics:** units & measurement, motion, force, work-energy, light (reflection/refraction), sound, electricity, magnetism.
- **Chemistry basics:** states of matter, atomic structure, periodic table, acids & bases, metals & non-metals, common compounds in daily life.
- **Biology basics:** cell, human body systems, nutrition, diseases & their causes, plant biology, ecology.
- **Recent S&T developments:** space missions (ISRO — recent launches), defence technology, biotech, AI, and their implications. Track the past 12 months.

5.2 Environment & Contemporary Issues

- Ecosystems, biodiversity, food chains.
- Pollution (air, water, soil), climate change, global warming.
- Conservation efforts, national parks & wildlife sanctuaries (especially in Andhra Pradesh), environmental laws and international agreements (Paris Agreement, etc.).

5.3 History of India (broad understanding — social, economic, cultural, political)

- **Ancient:** Indus Valley Civilisation, Vedic period, Mauryas, Guptas, major dynasties.
- **Medieval:** Delhi Sultanate, Mughals, Vijayanagara & Bahmani kingdoms (relevant to AP/South India), Bhakti & Sufi movements.
- **Modern:** British conquest, 1857 revolt, socio-religious reform movements, the freedom struggle (Moderates, Extremists, Gandhian phase), key sessions of the Congress, and Independence/Partition.
- Give attention to **Andhra Pradesh history** — formation of the state, the Andhra movement, local freedom fighters.

5.4 Geography of India

- **Physical:** mountains, rivers, plateaus, plains, climate, monsoons, soils.
- **Economic:** agriculture (major crops & cropping seasons), minerals, industries, transport.
- **Andhra Pradesh geography:** rivers (Godavari, Krishna), coastline, districts, crops, irrigation projects.
- World geography basics: continents, oceans, major countries & capitals.

5.5 Indian Polity

- The Constitution: Preamble, Fundamental Rights & Duties, Directive Principles.
- Union & State governments, Parliament & State Legislatures, the judiciary.
- President, PM, Governor, CM — powers and functions.
- Panchayati Raj & local self-government, Election Commission, key constitutional bodies.

5.6 Indian Economy

- Basic concepts: GDP, inflation, fiscal & monetary policy, the RBI.
- Five-Year Plans / NITI Aayog, banking, budget basics.
- Rural development, planning, and recent economic reforms.
- Major government schemes (central and Andhra Pradesh state schemes).

5.7 Current Affairs

- Read a daily newspaper (The Hindu / Eenadu / a reliable current-affairs app) and keep monthly notes.
- Focus areas: national & international events, awards, sports, appointments, summits, government schemes, and AP state news.
- Build a one-page monthly revision sheet — current affairs is high-yield and easy to forget without revision.

6. Preparation Strategy

Timeline (notification ~15 August 2026): You have a solid runway. A sample split: -

Months 1-2: Build concepts — finish arithmetic formulas and core reasoning types; start GS

static portions (History, Polity, Geography). - **Month 3:** Finish GS, begin daily current affairs, and start sectional tests. - **Final 4-6 weeks:** Full-length mock tests (timed), error analysis, and revision of formulas/notes only.

Daily routine suggestion: - 1.5 hrs Arithmetic, 1 hr Reasoning, 1.5 hrs General Studies, 30 min current affairs. - Maintain a **formula sheet** and a **current-affairs notebook** for quick revision.

Test practice: Solve previous-year AP Police SI/Constable papers and attempt at least 2-3 full mocks per week in the last phase. Track accuracy and speed separately.

Don't forget the physical stage: Selection also requires the Physical Measurement Test (PMT) and Physical Efficiency Test (PET). Begin running, endurance, and fitness training in parallel — many candidates clear written exams but lose out on the physical standards.

7. Quick Checklist

- [] Register on the official portal and watch slprb.ap.gov.in for the notification
- [] Confirm eligibility (age, education, physical standards) from the official notification
- [] Build and memorise the arithmetic formula sheet
- [] Practise one reasoning topic daily
- [] Cover GS static syllabus subject by subject
- [] Start daily current affairs now and revise monthly
- [] Begin physical fitness training early
- [] Take regular timed mock tests in the final phase

Prepared from the published AP Police SI 2026 exam pattern and syllabus. Always cross-check details — vacancies, dates, and exact topics — against the official APSLPRB notification once released.

AP Police SI Prelims 2026 — Subject-wise Preparation Plan

Based on the Prelims syllabus (Paper 1: Arithmetic & Reasoning · Paper 2: General Studies).
Total: 200 questions, 200 marks. You must clear both papers.

Priority is a study guidance based on the syllabus weightage, not an official mark distribution. Confirm details against the APSLPRB notification.

Subject Map at a Glance

#	Subject	Paper	Priority	Suggested Time Share
1	Arithmetic (Quantitative Aptitude)	Paper 1	High	25%
2	Reasoning & Mental Ability	Paper 1	High	20%
3	General Science	Paper 2	High	12%
4	Current Affairs	Paper 2	High	12%
5	Indian Polity	Paper 2	Medium	8%
6	History of India (+ AP)	Paper 2	Medium	8%
7	Geography of India (+ AP)	Paper 2	Medium	8%
8	Indian Economy	Paper 2	Medium	4%
9	Environment & Ecology	Paper 2	Low-Medium	3%

PAPER 1

1. Arithmetic (Quantitative Aptitude) — High priority

What to prepare: Number system · Percentage · Ratio & proportion · Average · Profit & loss · Simple & compound interest · Time & work · Work & wages · Time, speed & distance · Partnership · Mensuration · Clocks & calendars.

How to prepare: - Master the formula for each topic first, then solve 20–30 questions per topic. - Build a one-page formula sheet and revise it daily. - Learn shortcut/percentage-fraction tables and tricks for speed. - Prioritise high-frequency topics: percentage, profit & loss, time-speed-distance, time & work.

2. Reasoning & Mental Ability — High priority

What to prepare: Analogies · Series (number & letter) · Coding–decoding · Blood relations · Direction sense · Seating arrangement · Syllogisms · Similarities & differences · Spatial visualisation & orientation · Problem-solving · Decision making · Visual memory · Non-verbal reasoning.

How to prepare: - Practise one topic type per day; reasoning improves only with repetition. - For non-verbal (mirror images, paper folding, figure series), do timed sets. - Focus on accuracy first, then speed — reasoning is scoring if practised well.

PAPER 2 — General Studies

3. General Science — High priority

What to prepare: Basic Physics (motion, force, light, sound, electricity), Chemistry (matter, periodic table, acids/bases, daily-life chemistry), Biology (human body, diseases, nutrition, ecology), and recent developments in Science & Technology (ISRO/space, defence, biotech, AI).

How to prepare: - Use NCERT science books (Classes 6–10) for fundamentals. - Maintain a current S&T notebook for the last 12 months of developments.

4. Current Affairs — High priority

What to prepare: National & international events, government schemes (central + AP), appointments, awards, sports, summits, important days, AP state news.

How to prepare: - Read a daily newspaper (The Hindu / Eenadu) and a monthly current-affairs magazine. - Make a one-page monthly revision sheet — revise it repeatedly. - Cover roughly the 6–12 months before the exam.

5. Indian Polity — Medium priority

What to prepare: Constitution (Preamble, Fundamental Rights & Duties, DPSP), Union & State government, Parliament & Legislature, judiciary, President/PM/Governor/CM, Panchayati Raj, Election Commission, constitutional bodies.

How to prepare: NCERT Political Science + a standard polity book (Laxmikanth-style). Focus on the Constitution and the structure of government.

6. History of India (+ Andhra Pradesh) — Medium priority

What to prepare: Ancient (Indus Valley, Vedic, Mauryas, Guptas), Medieval (Delhi Sultanate, Mughals, Vijayanagara), Modern (British rule, 1857, reform movements, freedom struggle, Independence), and AP-specific history (state formation, Andhra movement, local freedom fighters).

How to prepare: NCERT history books; give extra attention to the Modern period and the AP-specific portion.

7. Geography of India (+ Andhra Pradesh) — Medium priority

What to prepare: Physical geography (mountains, rivers, climate, monsoon, soils), economic geography (agriculture, minerals, industries), AP geography (Godavari & Krishna rivers, coastline, districts, irrigation), and basic world geography.

How to prepare: NCERT geography + an Indian/AP atlas. Practise map-based learning.

8. Indian Economy — Medium priority

What to prepare: GDP, inflation, fiscal & monetary policy, RBI, banking, budget basics, NITI Aayog, rural development, recent reforms, and major schemes.

How to prepare: NCERT economics + economy current affairs. Focus on concepts plus scheme updates.

9. Environment & Ecology — Low-Medium priority

What to prepare: Ecosystems, biodiversity, pollution, climate change, conservation, national parks & sanctuaries (especially in AP), environmental laws and global agreements.

How to prepare: Short, focused notes; link with current affairs (climate summits, conservation news).

Recommended Study Order

1. **Start now:** Arithmetic + Reasoning (build the habit, takes longest to master) and begin daily Current Affairs.
2. **Parallel:** General Science using NCERTs.
3. **Next:** Polity → History → Geography → Economy (static GS subjects).
4. **Throughout:** Environment notes and continuous current affairs revision.
5. **Final phase:** Full-length timed mock tests + revision of formula sheet and CA notes only.

Core Resource Checklist

- [] NCERT books (Science, History, Geography, Polity, Economy — Classes 6–10/12)
- [] One standard Quantitative Aptitude book for Arithmetic
- [] One Reasoning practice book
- [] Daily newspaper + monthly current-affairs compilation
- [] AP-specific GK material (history, geography, schemes)
- [] Previous-year AP Police SI/Constable question papers
- [] A formula sheet and a current-affairs notebook (self-made)

Tip: don't neglect the Physical Measurement & Efficiency Test (PMT/PET) — start fitness training in parallel with written preparation. Always cross-check the syllabus and weightage against the official APSLPB notification.

AP Police SI Prelims 2026 — Subject-wise Preparation Notes

Actual study content for each subject of the Prelims syllabus. Use alongside NCERTs and a daily newspaper. Cross-check facts against current sources.

PAPER 1 — ARITHMETIC (with worked examples)

Percentage

Concept: $x\% = x/100$. To compare/convert quickly, memorise fractions ($1/8 = 12.5\%$, $1/6 \approx 16.67\%$, $1/3 \approx 33.33\%$). **Example:** A number increased by 20% becomes 360. Find it. $\rightarrow 1.20 \times N = 360 \rightarrow N = 360/1.2 = \mathbf{300}$.

Profit & Loss

Concept: Profit% = $(SP - CP)/CP \times 100$. **Example:** $CP = 400$, $SP = 500$. Profit% = $(100/400) \times 100 = \mathbf{25\%}$. **Successive discount:** 10% then 20% = $10 + 20 - (10 \times 20)/100 = \mathbf{28\%}$ total discount.

Simple & Compound Interest

Example (SI): $P = 5000$, $R = 8\%$, $T = 3$ yrs $\rightarrow SI = (5000 \times 8 \times 3)/100 = \mathbf{1200}$. **Example (CI):** $P = 1000$, $R = 10\%$, $T = 2$ yrs $\rightarrow A = 1000(1.1)^2 = 1210 \rightarrow CI = \mathbf{210}$. **Shortcut:** For 2 years, $CI - SI = P(R/100)^2 = 1000(0.1)^2 = 10$.

Ratio, Proportion & Average

Example (ratio): Divide 600 in ratio 2 : 3. Shares = $600 \times 2/5 = 240$ and $600 \times 3/5 = \mathbf{360}$.

Example (average): Average of 5 numbers is 20; sum = 100. If a sixth number 26 is added, new average = $126/6 = \mathbf{21}$.

Time & Work

Example: A finishes in 10 days, B in 15 days. Together: $1/10 + 1/15 = 1/6 \rightarrow \mathbf{6 \text{ days}}$.

Time, Speed & Distance

Example: A train 200 m long crosses a 300 m platform at 20 m/s. Time = $(200+300)/20 = \mathbf{25 \text{ s}}$. **Conversion:** $72 \text{ km/h} \times 5/18 = \mathbf{20 \text{ m/s}}$.

Mensuration

Example: Cylinder $r = 7$, $h = 10$. Volume = $\pi r^2 h = (22/7) \times 49 \times 10 = \mathbf{1540 \text{ cubic units}}$.

Clocks & Calendars

Clock: Minute hand gains 5.5° per minute on the hour hand. **Calendar:** Ordinary year = 1 odd day, leap year = 2 odd days; use odd days to find the weekday of any date.

PAPER 1 — REASONING (solved types)

- **Analogy:** Hand : Glove :: Foot : ? → **Shoe** (worn-on relationship).
- **Number series:** 2, 6, 12, 20, 30, ? → differences 4,6,8,10 → next +12 = **42**.
- **Coding:** If CAT = 3-1-20 (letter positions), then DOG = **4-15-7**.
- **Blood relation:** "He is the son of my mother's only son" → he is the speaker's **son**.
- **Direction:** Walk 3 km North, 4 km East → shortest distance = $\sqrt{3^2+4^2}$ = **5 km**.
- **Odd one out / non-verbal:** Practise mirror images, paper folding, and dice (opposite faces never appear together).

PAPER 2 — GENERAL SCIENCE (key facts)

Physics: Speed = distance/time; acceleration = change in velocity/time. Light travels $\approx 3 \times 10^8$ m/s. Reflection (mirrors), refraction (lenses). Sound needs a medium; cannot travel in vacuum. Ohm's law: $V = IR$.

Chemistry: Matter exists as solid/liquid/gas. Atom = protons + neutrons + electrons. pH < 7 acidic, = 7 neutral, > 7 basic. Common: NaCl (table salt), H₂O (water), CO₂, O₂. Metals are good conductors; non-metals generally are not.

Biology: Cell is the basic unit of life. Human systems: digestive, respiratory, circulatory, nervous. Vitamins & deficiency diseases (Vit C → scurvy, Vit D → rickets, Vit A → night blindness). Blood groups, photosynthesis in plants (chlorophyll, sunlight → glucose + O₂).

Recent S&T: Track ISRO missions, defence systems, and developments in AI/biotech over the past year (note them in a current-affairs sheet).

PAPER 2 — INDIAN POLITY (key facts)

- The Constitution came into effect on **26 January 1950**.
- **Fundamental Rights:** Right to Equality, Freedom, Against Exploitation, Freedom of Religion, Cultural & Educational Rights, Constitutional Remedies.
- **Directive Principles (DPSP):** guidelines for governance, non-justiciable.
- **Fundamental Duties:** added by the 42nd Amendment.
- **Parliament:** Lok Sabha (lower house) + Rajya Sabha (upper house). President is head of state; PM is head of government.
- **States:** Governor (appointed), CM (head of government), Legislative Assembly.
- **Key bodies:** Election Commission, UPSC, CAG, Finance Commission, Supreme Court & High Courts.
- **Panchayati Raj:** three-tier local self-government (Gram Panchayat, Mandal/Block, Zilla Parishad).

PAPER 2 — HISTORY OF INDIA (timeline highlights)

Ancient: - Indus Valley Civilisation (~2500 BCE) — Harappa, Mohenjo-daro; town planning, drainage. - Vedic period — Vedas, varna system. - Mauryas (Chandragupta, Ashoka — Kalinga war, Buddhism). - Guptas — "Golden Age," science, art.

Medieval: - Delhi Sultanate, Mughals (Babar, Akbar, Shah Jahan, Aurangzeb). - Vijayanagara Empire (key to South India / AP) and Bahmani kingdom. - Bhakti & Sufi movements.

Modern: - British rule, Battle of Plassey (1757), Revolt of 1857. - Reform movements (Raja Ram Mohan Roy, etc.). - Freedom struggle — INC (1885), Gandhi (Non-cooperation, Civil Disobedience, Quit India 1942), Independence 1947.

Andhra Pradesh: Formation of Andhra State (1953) and Andhra Pradesh (1956); the Andhra movement; Potti Sriramulu's role; local freedom fighters.

PAPER 2 — GEOGRAPHY OF INDIA (key facts)

- **Physical:** Himalayas (north), Northern Plains, Peninsular Plateau, Coastal Plains, Thar Desert. Major rivers: Ganga, Yamuna, Godavari, Krishna, Kaveri.
 - **Climate:** Monsoon-dominated; SW monsoon (June–Sept) brings most rainfall.
 - **Agriculture:** Kharif (monsoon) and Rabi (winter) crops; rice, wheat, cotton, sugarcane.
 - **Andhra Pradesh:** Bordered by the Bay of Bengal; long coastline; Godavari and Krishna are the major rivers; rice is the staple crop; major ports (e.g., Visakhapatnam).
 - **World basics:** 7 continents, 5 oceans, major countries and capitals.
-

PAPER 2 — INDIAN ECONOMY (key facts)

- **GDP:** total value of goods & services produced; key growth indicator.
 - **Inflation:** general rise in prices; controlled via monetary policy.
 - **RBI:** central bank; controls money supply, repo rate, monetary policy.
 - **Fiscal policy:** government taxation & spending (Union Budget).
 - **Planning:** Five-Year Plans → replaced by **NITI Aayog** (2015).
 - **Sectors:** primary (agriculture), secondary (industry), tertiary (services).
 - Know major government schemes (central + AP welfare schemes).
-

PAPER 2 — ENVIRONMENT & ECOLOGY (key facts)

- **Ecosystem:** producers, consumers, decomposers; food chains & webs.
- **Biodiversity:** variety of life; conserved via national parks, sanctuaries, biosphere reserves.
- **Pollution:** air, water, soil, noise — causes and effects.
- **Climate change:** greenhouse gases (CO₂, methane), global warming, the Paris Agreement.

- **AP relevance:** coastal ecology, mangroves (Coringa), wildlife sanctuaries.
-

PAPER 2 — CURRENT AFFAIRS (method)

Current affairs cannot be "memorised once" — build a rolling habit: - Read a daily newspaper; note 5–10 key points each day. - Make a **monthly one-page sheet**: schemes, appointments, awards, sports, summits, AP news. - Revise the last 6–12 months before the exam. - Use a monthly current-affairs magazine/compilation to fill gaps.

How to Use These Notes

1. Read the relevant NCERT chapter, then condense it into these note formats.
 2. For Arithmetic & Reasoning, solve 20–30 practice questions per topic after reading.
 3. Add current affairs daily; revise static GS weekly.
 4. Take a timed mock test every week in the final phase and review every mistake.
-

These are starter notes covering core, high-yield points. Expand each subject from NCERTs and standard preparation books. Verify all facts and the syllabus against the official APSLPB notification.

AP Police SI Prelims 2026 — Deep Dive:

Complete Arithmetic

A full walkthrough of every Arithmetic topic in the syllabus: concept, formulas, shortcuts, and solved problems. Work through each example with pen and paper before reading the solution.

1. Number System

Core: Natural, whole, integers, rational/irrational, prime, composite. **Divisibility:** 2 (last digit even), 3 & 9 (digit sum), 4 (last two digits), 5 (ends 0/5), 11 (alternating-digit-sum), 6 (by 2 and 3). **LCM & HCF:** $\text{LCM} \times \text{HCF} = \text{product of two numbers}$. **Sum formulas:** $1+2+\dots+n = n(n+1)/2$; squares = $n(n+1)(2n+1)/6$; cubes = $[n(n+1)/2]^2$.

Solved 1: Find the HCF and LCM of 12 and 18. $\rightarrow 12 = 2^2 \times 3$, $18 = 2 \times 3^2$. $\text{HCF} = 2 \times 3 = 6$; $\text{LCM} = 2^2 \times 3^2 = 36$. Check: $6 \times 36 = 216 = 12 \times 18$. ✓

Solved 2: Smallest number divisible by both 4 and 6. $\rightarrow \text{LCM}(4,6) = 12$.

2. Percentage

Core: $x\% = x/100$. To increase by $x\%$, multiply by $(1+x/100)$. **Key results:** Rise $x\%$ then fall $x\% \rightarrow \text{net loss } (x^2/100)\%$. To keep spending constant when price rises $x\%$, cut use by $x/(100+x) \times 100\%$.

Solved 1: A's salary rises 10% then 20%. Net rise? $\rightarrow 1.10 \times 1.20 = 1.32 \rightarrow 32\%$ rise.

Solved 2: If 40% of a number is 120, find the number. $\rightarrow N = 120/0.40 = 300$.

Solved 3: Price of sugar rises 25%. To keep the bill the same, by what % should consumption drop? $\rightarrow 25/(125) \times 100 = 20\%$.

3. Ratio & Proportion

Core: $a:b = c:d \Rightarrow ad = bc$. Combine $a:b$ and $b:c$ by making b common. **Splitting:** Divide A in $m:n \rightarrow A \cdot m/(m+n)$ and $A \cdot n/(m+n)$.

Solved 1: Divide ₹800 between A and B in ratio 3:5. $\rightarrow A = 800 \times 3/8 = 300$; $B = 800 \times 5/8 = 500$.

Solved 2: $A:B = 2:3$, $B:C = 4:5$. Find $A:B:C$. $\rightarrow B$ common: $A:B = 8:12$, $B:C = 12:15 \Rightarrow 8:12:15$.

4. Average

Core: Average = sum/count. Average speed for equal distances at $a, b = 2ab/(a+b)$.

Solved 1: Average of 25, 30, 35, 40, 45? $\rightarrow \text{Sum } 175 / 5 = 35$.

Solved 2: Average of 10 numbers is 20; if each is increased by 5, new average? $\rightarrow 25$ (adding a constant shifts the average by it).

Solved 3: A travels 60 km at 30 km/h and back at 60 km/h. Average speed? $\rightarrow 2(30)(60)/(30+60) = 3600/90 = \mathbf{40 \text{ km/h}}$.

5. Profit & Loss

Core: Profit% = $(SP-CP)/CP \times 100$; Loss% = $(CP-SP)/CP \times 100$. Successive discounts x%, y% $\rightarrow x+y-xy/100$.

Solved 1: CP = 500, SP = 650. Profit%? $\rightarrow 150/500 \times 100 = \mathbf{30\%}$.

Solved 2: An article costing 800 is marked up 50% and sold at 20% discount. Profit%? $\rightarrow MP = 1200$; SP = $1200 \times 0.8 = 960$; profit = $160/800 \times 100 = \mathbf{20\%}$.

Solved 3: A loss of 12% gives SP 440. Find CP. $\rightarrow CP = 440 \times 100/88 = \mathbf{500}$.

6. Simple & Compound Interest

Core: SI = $PRT/100$. CI: $A = P(1+R/100)^T$. CI-SI (2 yrs) = $P(R/100)^2$.

Solved 1: SI on 6000 at 5% for 4 years. $\rightarrow 6000 \times 5 \times 4/100 = \mathbf{1200}$.

Solved 2: CI on 5000 at 10% for 2 years. $\rightarrow A = 5000(1.1)^2 = 6050 \Rightarrow CI = \mathbf{1050}$.

Solved 3: A sum doubles in 10 years at SI. Find rate. $\rightarrow SI = P \Rightarrow 100 = R \times 10 \Rightarrow R = \mathbf{10\%}$.

7. Time & Work / Work & Wages

Core: 1 day's work = $1/n$. Together = $AB/(A+B)$. Wages split in ratio of work done.

Solved 1: A in 10 days, B in 15 days; together? $\rightarrow AB/(A+B) = 150/25 = \mathbf{6 \text{ days}}$.

Solved 2: 8 men finish in 6 days. How long for 4 men? $\rightarrow \text{Work} = 8 \times 6 = 48 \text{ man-days}$; $48/4 = \mathbf{12 \text{ days}}$.

Solved 3: A and B finish a job for ₹600. A works $1/10$ per day, B $1/15$. Wages? $\rightarrow$ Efficiency ratio $1/10 : 1/15 = 3:2 \Rightarrow A = ₹360, B = ₹240$.

8. Time, Speed & Distance

Core: Speed = distance/time. $1 \text{ km/h} = 5/18 \text{ m/s}$. Train+pole: L/speed ; train+platform: $(L+P)/\text{speed}$. Relative speed: sum (opposite), difference (same direction). Boats: down = $b+s$, up = $b-s$.

Solved 1: 90 km/h to m/s? $\rightarrow 90 \times 5/18 = \mathbf{25 \text{ m/s}}$.

Solved 2: A 240 m train at 20 m/s crosses a 160 m bridge in? $\rightarrow (240+160)/20 = \mathbf{20 \text{ s}}$.

Solved 3: A boat goes 16 km downstream in 2 h; stream 2 km/h. Boat speed in still water? $\rightarrow$ Down speed = $8 \text{ km/h} = b+2 \Rightarrow b = \mathbf{6 \text{ km/h}}$.

9. Partnership

Core: Profit shared in ratio of (capital $\times$ time).

Solved: A invests ₹5000 for 12 months, B ₹6000 for 6 months. Profit ratio? → A: $5000 \times 12 = 60000$; B: $6000 \times 6 = 36000 \Rightarrow 60:36 = \mathbf{5:3}$.

10. Mensuration

Key formulas table:

Shape	Area	Perimeter / Volume
Rectangle	$l \times b$	$2(l+b)$
Square	a^2	$4a$
Triangle	$\frac{1}{2} \cdot b \cdot h$	—
Circle	πr^2	$2\pi r$
Cube	—	$V = a^3, SA = 6a^2$
Cuboid	—	$V = lbh$
Cylinder	—	$V = \pi r^2 h, CSA = 2\pi rh$
Sphere	—	$V = (4/3)\pi r^3, SA = 4\pi r^2$
Cone	—	$V = (1/3)\pi r^2 h$

Solved 1: Circle $r = 7$ ($\pi = 22/7$). Area? → $22/7 \times 49 = \mathbf{154}$.

Solved 2: Volume of a cylinder $r = 7, h = 10$. → $22/7 \times 49 \times 10 = \mathbf{1540 \text{ cubic units}}$.

11. Clocks & Calendars

Clock: Minute hand gains $5.5^\circ/\text{min}$ over hour hand. At 3:00 angle = 90° . Hands coincide every ≈ 65.45 min. **Calendar:** Ordinary year = 1 odd day; leap year = 2 odd days. Leap year: divisible by 4 (centuries by 400).

Solved: Angle between hands at 6:00? → $6 \times 30 = \mathbf{180^\circ}$.

Practice Strategy for Arithmetic

1. Master one topic's formula, then solve 20–30 questions before moving on.
2. Keep a single formula sheet; revise it daily.
3. Always check units (km/h vs m/s) and read whether the question wants profit on cost or on SP.
4. Time yourself — under 45 seconds per question is the target.

Ask for a similar deep-dive on Reasoning or any GS subject (e.g. full Indian Polity). Verify difficulty level against the official APSLPB notification.

AP Police SI Prelims 2026 — Andhra Pradesh GK

Focused state knowledge: history, geography, polity, economy, schemes and facts about Andhra Pradesh. The Prelims weights state awareness heavily, so this is high-value revision.

STATE AT A GLANCE

Item	Detail
State	Andhra Pradesh
Capital	Amaravati (made permanent capital, 2026)
Chief Minister (2026)	N. Chandrababu Naidu
Bifurcation	Telangana carved out in 2014
Major rivers	Godavari, Krishna (also Penna, Tungabhadra)
Coastline	Long coastline along the Bay of Bengal
Major port	Visakhapatnam
Recruiting board (police)	AP State Level Police Recruitment Board (APSLPRB)

HISTORY OF ANDHRA PRADESH

- Ancient Andhra was home to the **Satavahana** dynasty, an important early power in the Deccan.
- The region later saw the **Eastern Chalukyas**, **Kakatiyas**, and the **Vijayanagara Empire** (a major South Indian power; Krishnadevaraya was its celebrated ruler).
- **Modern formation:** Following the agitation and the fast-unto-death of **Potti Sriramulu**, **Andhra State** was formed in **1953** (the first state created on a linguistic basis).
- In **1956**, Andhra State merged with the Telugu-speaking areas of Hyderabad State to form **Andhra Pradesh**.
- In **2014**, the state was bifurcated and **Telangana** became a separate state; Andhra Pradesh continued with a new capital plan centred on **Amaravati**.

GEOGRAPHY OF ANDHRA PRADESH

- **Location:** South-eastern India, along the Bay of Bengal, with one of the longest coastlines among Indian states.
- **Rivers:** The **Godavari** and **Krishna** are the two major rivers; their deltas are highly fertile rice-growing regions.
- **Relief:** Coastal plains in the east; the Eastern Ghats run roughly parallel to the coast.

- **Climate:** Tropical; the state receives rainfall from both the southwest and northeast monsoons; the coast is cyclone-prone.
- **Agriculture:** Rice is the staple crop; other crops include pulses, cotton, chillies, and tobacco. AP is a leading state in aquaculture and horticulture.
- **Ecology:** **Coringa** mangrove wildlife sanctuary (near the Godavari delta) is an important coastal ecosystem.

POLITY & ADMINISTRATION

- Andhra Pradesh has a **Legislative Assembly** (and historically a Legislative Council), with the **Governor** as constitutional head and the **Chief Minister** as head of government.
- The state is organised into districts (the number was increased in a recent reorganisation) headed by **District Collectors**.
- Governance initiatives emphasise technology-driven delivery (e.g. real-time governance) and the **Swarna Andhra 2047** long-term vision.

ECONOMY & DEVELOPMENT

- AP contributes a significant share of India's agricultural output and is strong in **micro-irrigation** and **natural farming**.
- Key sectors: agriculture and allied activities, aquaculture, ports and logistics (Visakhapatnam), pharmaceuticals, and IT/industry corridors.
- The state's roadmap targets higher GSDP growth under the **Swarna Andhra 2047** vision.

WELFARE SCHEMES (know the beneficiary group)

Scheme (type)	For whom
Annadata Sukhibhava	Farmers (financial support)
Thalliki Vandanam / Amma Vodi-type	Mothers — children's education aid
"Super Six" promises	Flagship welfare guarantees
YSR Cheyutha (earlier cycle)	Women's self-employment capital
Jagananna Vidya/Vasathi Deevena (earlier)	Student fees & hostel support

Scheme names and details change with government cycles — confirm current names on official AP portals.

QUICK FACTS TO MEMORISE

- First linguistic state of India: **Andhra State (1953)**.
- Person behind Andhra State formation: **Potti Sriramulu**.
- Telangana separation year: **2014**.
- Permanent capital (2026): **Amaravati**.

- Two great rivers: **Godavari and Krishna**.
 - Major port and steel/industrial city: **Visakhapatnam**.
 - Famous historical empire of the region: **Vijayanagara** (ruler Krishnadevaraya); early dynasty **Satavahanas**.
-

How to Use This

- Pair this with the day's AP news to keep state current affairs fresh.
- Make flashcards for rivers, dynasties, schemes and key dates.
- Expect direct questions on AP geography, history and schemes in Paper 2.

Cross-check district counts, scheme names, office-holders and figures against current official AP sources and the APSLPRB notification.

AP Police SI Prelims 2026 — Current Affairs Compilation (2026)

National and Andhra Pradesh developments relevant to the exam, compiled from 2026 sources. Current affairs change quickly — treat this as a base and update from a daily newspaper / monthly magazine before the exam.

NATIONAL — GOVERNANCE & ECONOMY

- **President of India:** Droupadi Murmu (the first woman from a tribal community to hold the office).
- **Union Budget 2026-27** was presented by Finance Minister **Nirmala Sitharaman**; the **Economic Survey 2025-26** was tabled before it during the Budget Session that opened with the President's address to a joint sitting.
- The Budget continued the **Viksit Bharat** growth agenda; announcements included new **National Waterways**, infrastructure for Tier-II/Tier-III and temple towns, and a plan for India to host the first-ever **Global Big Cat Summit**.

NATIONAL — DIPLOMACY & SUMMITS

- **18th BRICS Summit (2026)** is being **hosted by India**; PM Modi extended invitations including to the UAE President (UAE joined BRICS in 2024).
- India participated in the **G7 Summit 2026** outreach session held at **Évian-les-Bains, France** (France held the G7 presidency), under a theme on rebuilding international partnerships.
- India hosted the **India-AI Impact Summit 2026** in **New Delhi** — described as the first global AI summit held in the Global South.
- Ongoing focus areas in India's foreign policy: energy security around the **Strait of Hormuz**, the **India-UAE CEPA**, and trade negotiations with partners such as Canada and the UK.

ANDHRA PRADESH — STATE AFFAIRS

- **Chief Minister:** N. Chandrababu Naidu.
- **Amaravati confirmed as the permanent capital:** the **Andhra Pradesh Reorganisation (Amendment) Bill, 2026** granted Amaravati permanent capital status, ending the earlier "three-capital" uncertainty and aiming to restore investor confidence.
- **Swarna Andhra 2047 Vision:** the state's long-term development roadmap, with GSDP targets and ten guiding principles, reviewed at the District Collectors' Conferences in Amaravati.
- **"Super Six"** welfare scheme promises form a centrepiece of the state government's agenda.

- The Union and state governments are coordinating on **agriculture** (AP contributes a large share of India's farm output; strengths in micro-irrigation and natural farming) and Union Budget 2026–27 scheme implementation.

ANDHRA PRADESH — WELFARE SCHEMES (know the purpose of each)

- **Annadata Sukhibhava** — financial support to farmers.
- **Thalliki Vandanam / Amma Vodi-type aid** — assistance to mothers for children's education.
- **YSR Cheyutha / Jagananna Vidya Deevena / Vasathi Deevena** — women's self-employment capital and student fee/hostel support (earlier-cycle flagship schemes).
- Use the official portals (e.g. NBM / Navasakam) for the latest scheme names and beneficiary details.

QUICK FACTS TO MEMORISE

Topic	Fact (2026)
President of India	Droupadi Murmu
Union Finance Minister	Nirmala Sitharaman
AP Chief Minister	N. Chandrababu Naidu
AP capital	Amaravati (permanent, 2026)
BRICS 2026 host	India (18th Summit)
G7 2026 host	France (Évian)
AI summit 2026	India-AI Impact Summit, New Delhi
AP vision	Swarna Andhra 2047

How to Keep This Updated

- Read a daily paper (**The Hindu / Eenadu**) and note 5–10 points each day.
- Maintain a **monthly one-page sheet**: schemes, appointments, awards, sports, summits, AP news.
- Revise the **last 6–12 months** before the exam.
- Pay special attention to **AP state news** — the exam weights state awareness.

All facts above reflect 2026 sources and can change. Confirm names, dates and figures from current official sources and the APSLPRB notification before relying on them.

AP Police SI Prelims 2026 — Quick-Revision Sheet

Last-minute condensed sheet: every key Arithmetic formula plus high-frequency GS facts.

ARITHMETIC FORMULAS

Percentage: $x\% = x/100$. Increase by $x\% \rightarrow x(1+x/100)$. Decrease $\rightarrow x(1-x/100)$. Rise $x\%$ then fall $x\% \rightarrow \text{net } -(x^2/100)\%$. Spend-same after price rise $x\% \rightarrow \text{cut consumption by } x/(100+x) \times 100\%$.

Profit & Loss: $\text{Profit}\% = (SP-CP)/CP \times 100$. $SP = CP \times (100+P\%)/100$. Two discounts $x\%, y\% \rightarrow x+y-xy/100$.

Interest: $SI = PRT/100$. CI: $A = P(1+R/100)^T$; $CI = A-P$. CI-SI (2 yrs) $= P(R/100)^2$.

Ratio & Average: Divide A in $m:n \rightarrow A \cdot m/(m+n), A \cdot n/(m+n)$. Average = sum/count. Avg speed (equal distance, speeds a, b) $= 2ab/(a+b)$.

Time & Work: 1 day's work $= 1/n$. Together $= AB/(A+B)$. Efficiency $\propto 1/\text{time}$.

Speed & Distance: Speed = dist/time. $1 \text{ km/h} = 5/18 \text{ m/s}$. Train + pole: $t = L/\text{speed}$. Train + platform: $t = (L+P)/\text{speed}$. Downstream = boat+stream; upstream = boat-stream.

Mensuration: Rectangle area $l \times b$, perimeter $2(l+b)$. Square $a^2, 4a$. Triangle $\frac{1}{2} \cdot b \cdot h$. Circle $\pi r^2, 2\pi r$. Cuboid $l \times b \times h$. Cube $a^3, 6a^2$. Cylinder $\pi r^2 h, \text{CSA } 2\pi r h$. Sphere $(4/3)\pi r^3, 4\pi r^2$. Cone $(1/3)\pi r^2 h$.

Numbers: $\text{LCM} \times \text{HCF} = \text{product of two numbers}$. Sum of first $n = n(n+1)/2$; squares $n(n+1)(2n+1)/6$; cubes $[n(n+1)/2]^2$. Divisibility: 3 (digit-sum), 9 (digit-sum), 11 (alt-sum).

Useful fractions: $1/2=50\% \cdot 1/3 \approx 33.3\% \cdot 1/4=25\% \cdot 1/5=20\% \cdot 1/6 \approx 16.7\% \cdot 1/8=12.5\% \cdot 3/8=37.5\%$.

REASONING QUICK TIPS

- Write A=1 ... Z=26 before coding questions.
- Family-tree symbols for blood relations; compass sketch for direction.
- Series: check +constant, $\times$ constant, squares/cubes, alternating, prime, Fibonacci.
- Dice/cube: opposite faces never show together.
- Mirror image: left $\leftrightarrow$ right flips; water image: top $\leftrightarrow$ bottom flips.

POLITY KEY FACTS

- Constitution effective **26 Jan 1950**; drafting chaired by **B. R. Ambedkar**.
- Fundamental Rights — Part III; Directive Principles — Part IV; **11** Fundamental Duties.
- Parliament = Lok Sabha (lower) + Rajya Sabha (upper). Money bills only in Lok Sabha.
- President elected by an electoral college; PM heads the government.
- Panchayati Raj = **3 tiers**. Election Commission & UPSC are constitutional bodies.

HISTORY KEY FACTS

- Indus Valley ~2500 BCE (town planning). Ashoka — **Maurya**; Guptas — "Golden Age."
- Battle of Plassey **1757**; Revolt of **1857** (began at Meerut).
- INC founded **1885**; Quit India **1942** ("Do or Die" — Gandhi); Independence **1947**.
- Vijayanagara — South India. **Potti Sriramulu** → formation of Andhra State (1953).

GEOGRAPHY KEY FACTS

- Longest river: **Ganga**. SW monsoon arrives ~**June**. IST based on **82.5°E**.
- AP rivers: **Godavari & Krishna**. Major AP port: **Visakhapatnam**. Capital: **Amaravati**.
- Himalayas = fold mountains. Deccan = basalt. Kharif (monsoon) / Rabi (winter) crops.

GENERAL SCIENCE KEY FACTS

- Force unit **newton**; current **ampere**; light $\approx 3 \times 10^8$ m/s.
- Neutral pH **7**. Salt = **NaCl**; water = H₂O; respiration uses **oxygen**.
- Cell powerhouse = **mitochondrion**. Bones in adult = **206**. Largest gland = **liver**.
- Vit C → scurvy; Vit D → from sunlight; Malaria → protozoan. Diamond = hardest.
- Sound can't travel in **vacuum**. Photosynthesis in **leaves** (releases O₂).

ECONOMY KEY FACTS

- **RBI** = central bank (monetary policy, issues currency). **NITI Aayog** replaced Planning Commission.
- GDP = total goods & services. Inflation = general price rise. Financial year **Apr-Mar**.
- Union Budget by the **Finance Minister**; Economic Survey precedes the Budget.

CURRENT AFFAIRS SNAPSHOT (2026 — verify before exam)

- President of India: **Droupadi Murmu**. Union Budget 2026-27 by **Nirmala Sitharaman**.
- AP Chief Minister: **N. Chandrababu Naidu**. **Amaravati** confirmed as permanent capital (2026).
- AP vision: **Swarna Andhra 2047**; "**Super Six**" welfare scheme promises.
- India hosting the **18th BRICS Summit (2026)**; hosted the **India-AI Impact Summit** (New Delhi); attended **G7 2026** (France).
- *Current affairs change fast — confirm the latest before the exam.*

NATIONAL SYMBOLS / GK

National animal **tiger** · national bird **peacock** · capital **New Delhi** · currency **rupee** (issued by RBI) · ISRO HQ **Bengaluru** · Telangana split from AP in **2014** · India's longest land border with **Bangladesh**.

Condensed for revision. Cross-check the syllabus and all current facts against the official APSLPBR notification and up-to-date sources.

AP Police SI Prelims 2026 — Week-by-Week Study Timetable

Planned from late June 2026, when the notification (~15 August 2026) is still ahead. The exact Prelims exam date will come with the notification; this plan assumes roughly 14 weeks of runway and adjusts into intensive revision near the end. Shift dates as needed once the official date is announced.

Daily Time Blocks (about 5 hours/day)

Block	Duration	Focus
Morning	1.5 hr	Arithmetic
Late morning	1.0 hr	Reasoning
Afternoon	1.5 hr	General Studies (static)
Evening	0.5 hr	Current affairs + newspaper
Evening	0.5 hr	Revision of the day's notes

Plus physical training (PMT/PET) on alternate mornings — see the PMT/PET plan.

Phase 1 — Foundation (Weeks 1-4)

Week 1 (Jun 23 - Jun 29)

- Arithmetic: Number system, Percentage.
- Reasoning: Series (number & letter), Analogies.
- GS: Indian Polity — Constitution, Fundamental Rights.
- Start daily current affairs habit + begin light fitness.

Week 2 (Jun 30 - Jul 6)

- Arithmetic: Ratio & proportion, Average.
- Reasoning: Coding-decoding, Odd one out.
- GS: Polity — Parliament, President, PM, judiciary.

Week 3 (Jul 7 - Jul 13)

- Arithmetic: Profit & loss.
- Reasoning: Blood relations, Direction sense.
- GS: History — Ancient & Medieval India (with Vijayanagara/AP).

Week 4 (Jul 14 - Jul 20)

- Arithmetic: Simple & compound interest.
- Reasoning: Seating arrangement (linear).

- GS: History — Modern India & freedom struggle.
- **Sectional test 1** (Arithmetic + Reasoning topics covered so far).

Phase 2 — Building (Weeks 5-8)

Week 5 (Jul 21 - Jul 27)

- Arithmetic: Time & work, Work & wages.
- Reasoning: Seating (circular), Syllogisms.
- GS: Geography of India — physical features, rivers, monsoon.

Week 6 (Jul 28 - Aug 3)

- Arithmetic: Time, speed & distance (incl. trains, boats).
- Reasoning: Non-verbal (mirror, paper folding, figure series).
- GS: Geography — economic + Andhra Pradesh geography.

Week 7 (Aug 4 - Aug 10)

- Arithmetic: Partnership, Mensuration.
- Reasoning: Visual memory, spatial reasoning.
- GS: General Science — Physics & Chemistry basics.

Week 8 (Aug 11 - Aug 17) — *notification window ~Aug 15*

- Arithmetic: Clocks & calendars + mixed revision.
- Reasoning: Mixed practice set.
- GS: General Science — Biology + recent S&T.
- **Read the official notification carefully** when released; confirm syllabus, dates, eligibility, physical standards. **Sectional test 2** (full GS).

Phase 3 — Intensive Practice (Weeks 9-12)

Week 9 (Aug 18 - Aug 24)

- GS: Indian Economy + current affairs consolidation.
- Daily: 1 sectional test (alternate Arithmetic / Reasoning).

Week 10 (Aug 25 - Aug 31)

- GS: Environment & AP-specific GK (schemes, state facts).
- **Full Mock Test 1** (timed). Analyse every mistake.

Week 11 (Sep 1 - Sep 7)

- Revise weak Arithmetic topics + 2 sectional tests.
- **Full Mock Test 2** (timed).

Week 12 (Sep 8 - Sep 14)

- Revise weak GS subjects + current affairs of last 6 months.
- **Full Mock Test 3** (timed).

Phase 4 — Final Revision (Weeks 13-14)

Week 13 (Sep 15 - Sep 21)

- Revise formula sheet + GS quick-revision sheet only.
- 2 more full mocks; focus on speed and accuracy.
- Continue PMT/PET training (taper if exam is near).

Week 14 (Sep 22 onward) — *pre-exam*

- Light revision only: formulas, current affairs sheet, frequently-missed questions.
- One final timed mock 4-5 days before the exam.
- Sleep well; keep documents and hall ticket ready.

Weekly Rhythm (repeat each week)

Day	Extra focus
Mon-Fri	New topics per the week's plan
Saturday	Sectional / full test
Sunday	Review test, revise the week, current-affairs weekly recap

Rules to Keep You on Track

- Revise before you add: spend the first 15 minutes of each session on yesterday's notes.
- One formula sheet and one current-affairs notebook — revise both weekly.
- Never skip the weekly test; the mistakes are where the marks are.
- Adjust the calendar the moment the official exam date is announced.

Dates are planning guidance from June 2026. Re-anchor the whole plan to the official Prelims date once the APSLPRB notification is out.

AP Police SI Prelims 2026 — PMT / PET Standards & Training Plan

The written exam is only the start — the Physical Measurement Test (PMT) and Physical Efficiency Test (PET) decide the rest. Standards below are based on AP SI sources; **the exact qualifying figures and PET event marks will be confirmed in the official APSLPRB notification**. Train from now — fitness can't be built in the final week.

Selection Flow

Prelims (written) → **PMT** (body measurements) → **PET** (physical events) → Mains (final written) → Medical & verification.

The PMT is qualifying: failing the minimum height/chest/weight standard means disqualification regardless of written marks.

Physical Measurement Test (PMT) — Standards

Candidate	Minimum Height	Chest / Weight
Men (general)	167.6 cm	Chest 86.7 cm with min 5 cm expansion
Women (general)	152.5 cm	Weight at least 40 kg
Men (relaxed categories/specific posts)	~160 cm	Chest ~80 cm with 3 cm expansion
Women (relaxed categories)	~150 cm	Weight at least ~38 kg

Relaxations apply to certain categories (e.g. ST) and specific posts. Confirm the exact figures for your category and post from the notification.

Physical Efficiency Test (PET) — Events

The AP recruitment board has moved to a **reduced set of events** and replaced the old 5 km run with a shorter (about 1 mile / 1600 m) run. The PET for AP police posts has generally included:

- **100 m run** (speed)
- **Long jump** (explosive power)
- **1600 m / long-distance run** (endurance)

Marks are awarded by time/distance achieved. **The exact SI events, distances, qualifying times and marks will be specified in the official notification** — some posts and genders

have different benchmarks. Train across speed, power and endurance so you are ready whatever the final event list.

12-Week Training Plan (run alongside written prep)

Weeks 1-4 — Base building

- **Running:** 3 days/week, easy 2–3 km jogs; build comfortable endurance.
- **Strength:** bodyweight squats, lunges, push-ups, planks — 3 sets, alternate days.
- **Mobility:** daily 10-min stretching (hips, hamstrings, calves) to prevent injury.

Weeks 5-8 — Build speed & power

- **Sprints:** 6–8 × 100 m at near-max effort, 2 days/week (full recovery between reps).
- **Long jump drills:** practise the run-up, take-off and landing; 3 chances mindset.
- **Endurance run:** one longer run (1600 m timed) each week; track your time.
- **Strength:** add jump squats and broad jumps for explosive power.

Weeks 9-12 — Sharpen & simulate

- **Mock PET day** once a week: do 100 m, long jump and the timed run back-to-back as in the real test.
- **Taper** in the final week before the test: lighter sessions, rest, hydration.
- Use **standard athletic running shoes** (spikes are usually not allowed).

Nutrition & Recovery (general guidance)

- Eat balanced meals with adequate protein, complex carbs, fruits and vegetables; stay well hydrated.
- Sleep 7–8 hours — recovery is when fitness is built.
- Avoid crash diets or extreme regimens; steady, consistent training wins.
- *For any personalised diet or medical concerns, consult a doctor or qualified trainer.*

Test-Day Checklist

- [] Hall ticket / admit card for the physical test
- [] Required ID and certificates for verification
- [] Proper athletic shoes and sportswear
- [] Arrive early, warm up thoroughly, stay hydrated
- [] Read each event's instructions; use all allowed attempts (e.g. long jump's best of three)

Key Reminders

- The PMT is pass/fail on measurements — know your category's exact minimums.
- Start endurance and sprint training now; the body needs months, not days.
- A medical examination follows the PET — maintain overall fitness (vision, etc.).

Standards and PET details here are from AP SI sources and may change. Always confirm height/ chest/weight minimums, PET events, distances, timings and marks against the official APSLPRB notification when it is released.
